

## School Statement of Intent

The overall key statement is the cornerstone of the school. It is the starting point for all our policies and it is reflected in our school organisation and classroom practice. The following is our own Statement of Intent; it is our school vision, and was written in collaboration with pupils, parents, staff and governors.

**We aim for all our children to:**

- **enjoy school life**
- **be safe and healthy**
- **have high achievement**
- **be motivated learners in an engaging environment**
- **participate within communities at all levels**
- **gain broad, balanced, transferable skills**
- **behave appropriately at all times**
- **develop empathy and tolerance for others**
- **have high levels of self-esteem, and have respect for themselves and others**

We think it is important to state that in maintaining a coherent policy of effective learning for our children, we as a staff must ensure that we can remain learners ourselves. We must create a climate of trust, co-operation and participation whereby we encourage the sharing of expertise, skills and resources.

Good communication is essential and the school will always endeavour to keep parents informed about general school matters and about children's progress in particular.

We will actively promote the principle of equal opportunities and challenge and discourage prejudice and discrimination of all kinds.

Staff and governors are committed to providing an enjoyable, satisfying and successful education for children at Plumpton School. We will place particular emphasis on the development of our pupils as well-rounded individuals who will leave us fully prepared for their futures.
