

Plumpton School

Student Questionnaire 2020

The student questionnaire had 26 responses.

Response by year group:

Response to Questions:

“Yes” scores 1 point

“Not sure” scores 2 points

“No” scores 3 points

The lower the score, the better. Some questions were not answered and scored 0, which is why Q8 has a score of less than 25.

The questions with the highest overall scores are:

Q3 – do you like school dinners? Score 37.

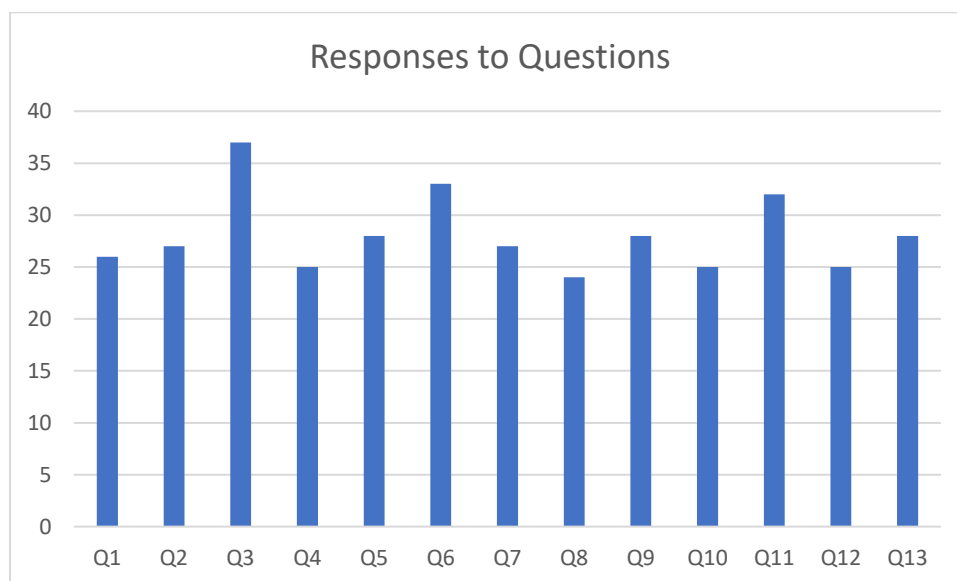

Three students answered “No” and six answered “Not sure”. Some of these said that they bring packed lunches.

Q6 – do you understand the consequences or punishments when the school rules are broken? Score 33.

Two students answered “No” and four answered “Not sure”. This appears to be a result of general good behaviour; one Y2 student commented, “I don't know what happens but I know I should keep rules.”

Q11 – do you get help when you do not understand what you are expected to do? Score 32

Two students answered “No” and three answered “Not sure”, with one student commenting, “I don't ask”.

In the comments section at the bottom, answers show a lot of love for the teachers and appreciation of time with friends. Students wouldn't change anything about the school and obviously enjoy themselves and what they are learning.
